

LIGA CARPATHIA

INTERNATIONAL COMMUNICATION

Date: 15 May 2023

Subject: Organisation of the Romanian-African Countries Industry Congress-Forum

Bucharest, Romania - The "Liga Carpathia" Foundation, the "Dignitas" Foundation and the "CICP Group" Foundation announce the organization of the Romanian-African Countries Industry Congress-Forum, which will take place from 23 to 25 November 2023 in Bucharest.

This major event will bring together international investors, industry experts and Romanian government and presidency representatives to present and discuss bilateral investment opportunities between Romania and its partners from the African continent.

The Congress will promote and encourage economic growth between the partners involved.

The Romanian-African Countries Industry Congress-Forum will be an important platform to establish strategic partnerships, share experiences and exchange ideas. This event will be an opportunity for all participants, including approximately 500 of the largest companies in Romania from all important and strategic sectors, the Presidency of the Republic, the Ministries of Economy, Finance, Education, Scientific Research and Innovation to forge strong links and create partnerships, collaborations and multilateral cooperation.

The event will include plenary sessions, round tables and thematic workshops led by industry experts from both Romanian and African countries. Topics will include key sectors of the international economy such as information technology, electronics, buildings and public works, electrification, health and pharmaceuticals, automobiles, textiles, food, agriculture, socio-cultural know-how and education, manufacturing, renewable energy and communication, innovation and artificial intelligence, as well as tourism. Participants will also have the opportunity to discover and present current and future investment projects and partnership opportunities with companies from Romania and African countries.

The conference will also provide face-to-face meetings between investors from both sides, fostering bilateral discussions and opportunities for current and future collaboration. Exhibition stands will present the projects, products and services of the participating companies.

The holding of this congress demonstrates the commitment of the Romanian industry to promote an attractive investment environment and to strengthen ties with investors from African countries. Romania offers unique opportunities for investments in various sectors due to its natural resources, skilled labour force and strategic location in the heart of Europe.

Interested participants from African countries are invited to contact Mr. Freddy Dominique Zanga, President of the CICP Group in Paris.

Executive President
Sandu Staicu
